

DIRECT EXPORT FROM PUBMED

BE WHAT YOU WANT TO BE cqu.edu.au

Exporting References from PubMed to EndNote using direct export

You can either export records to the Citation manager directly from the search results, or continue adding records to your Clipboard as you search and then export them in a batch at the end.

Export selected records directly to your citation manager

Use this technique if you only need records from one page of the results.

- 1. Mark the records which you wish to export
- 2. Click the Send To button and select Citation manager from the menu.

Export records from your Clipboard

Use this technique if you need to do several different searches, or export specific records from more than one page of results. The Clipboard is cleared after 8 hours of inactivity so remember to export your records at the end of your search session.

- 1. Mark the records which you wish to export
- 2. Click the ellipsis Send To button and select Clipboard from the menu.
